2024/25 Pricing Guide

HI THERE!

My name is James, and I am very excited that you are here!

This means that you are busy planning your wedding day, and you are ready to book your photographer.

I cannot wait to find out more about you, and your story.

At this point, I am very appreciative that you have considered me to photograph your special day and I hope that this pricing guide will help give you all the information you need, and figure if I suit your needs.

So, when you are ready, let's get into it!

ABOUT ME

Hey, I'm James Clarke - a Somerset based Wedding Photographer who loves to take modern and documentary style wedding photographs throughout the UK and beyond.

As I'll be finding out your story as I capture your day, it's best if I tell you a little bit about myself and what inspired me and why I love wedding photography.

Since I was a child, I have always carried a camera in my hands. Whether it be a wind-up camera with the classic holiday pics, or disastrous selfies, or it being a cam-recorder taking clips whilst swimming abroad.. I absolutely loved sharing my life with whoever I could, but I always kept this passion running in the background whilst I chased my dream to be the best I could in the pool, or on the pool deck as a coach.

When COVID came along and we came out the other side of it, I decided that this was the one chance I had at pursuing my passion for photography full-time. With a very supportive wife and now Dad to two amazing girls, I was free and have never looked back.

YOUR EXPERIENCE

1. Hold your horses! - Before we talk all things about your wedding day, make sure you check out my portfolio to see if I match the style you are after for your special day. As a wedding photographer, I am natural, unobtrusive and capture candid moments throughout your day.

I also actively encourage couples to book an engagement shoot to (1) meet me in person (2) get to see how I work (3) have some amazing photographs taken of such a special time in your journey towards marriage and as a couple.

2. Enquiry - After filling out my short contact form, I will reply as soon as possible to book a pre-wedding consultation video call.

3. Booking - Once we have had a chat and you are happy, I then send you a contract and deposit invoice (30% of total price) to confirm the booking. Once I have received both of these back, your booking is complete!

4. Pre-Wedding - Between booking with me and your wedding day, I am open to receive any questions you may have. One month prior to your big day, I arrange to either meet in person, or have another video call to iron out all the details.

5. Your Wedding Day! - I will be there to capture your big day. From fixing the groom's flower pins, to fluffing out the Brides dress, I help out in as many ways to make you feel relaxed on your big day. Enjoy it, I should have all the information by this point, so relax and take it all in!

6. Deliverables - Following your Wedding Day, I will deliver a small collection of 'HERO Shots' to you via email, within 24 hours (depending on location). You will then receive a full online album of photos between four and eight weeks and also a personalised USB box with a hand full of free prints included.

PACKAGES

LET ME HELP YOU GET MARRIED!

I am so excited that you are here! This means that you've enjoyed my work enough, planning is in full swing, and you are ready to book your wedding photographer.

No two weddings are the same, however I find that the two packages I offer cater for all of the weddings I have worked at. Should you want to enquire about either destination weddings, or small packages for smaller weddings, do please do that. Let's get the ball rolling...

Platinum - £1295

12 hours

This is my most popular package with all my couples. I am yours throughout the day and be with you from getting ready, to the evening party.

You'll receive a minimum of 500 photographs, all fully edited, to the colour theme of the wedding flowers, with full license to print and share with friends and family. You will receive hero shots within 24 hours, a full online album and a personalised USB box with roughly a dozen free prints inside.

Gold - £995

7 hours

This package caters for an ever increasing popular decision for couples that want smaller weddings, without missing out on getting great photos.

You will receive a minimum of 300 photographs, with all the bells and whistles of the platinum package. You will also receive a personalised USB box with roughly a dozen free prints inside with this package.

EXTRAS

Additional Photographer

If you are having a BIG wedding (over 120 guests), I really advise you to book a second wedding photographer for your special day. This way you will have more photos of the guests taken, different angles and perspectives of sections of your day, and also a lot more photos in your final album.

Alternatively, you might consider a second photographer when the bridal and groom prep is in two different locations and you want both covered.

I have a list of second photographers that I have worked with and I can trust.

Engagement or Pre-Wedding Photoshoot

One thing I would highly recommend to all couples, especially if you are not comfortable in front of a camera, is to get practise by booking an engagement, or pre-wedding photoshoot. It is also a great way to both meet with me and see how I work, so that when it comes to your big day, you can relax knowing what I will be like. You will 100% feel more at ease and get amazing photos at the same time.

Additional hours into the evening!

£150 per hour

Looking to keep me on into the early hours of the morning? Then this option is perfect for you! Considered 'anti-social' hours, these won't be for you on your wedding evening and I can be there for you. I might even join in for a dance, or two!

THANK YOU

Thank you so much for reading through all of this information! To even be considered to play such a big part of your wedding day means so much already and I am very grateful.

Please do at any stage feel free to send me any questions at all. Hopefully both my website and this pricing guide has covered most, if not all the information you need about my wedding photography services. I know from my own experience of getting married, how overwhelming the whole process can be. Those would probably be my wife's words mostly!

Lastly, if you'd like to book with me, my calendar is filling up fast for 2024, so the decision is in your court. I'd love to work with you, so shoot me an email and let's get the ball rolling.
